

PERNO IN POM PER SISTEMA MODULO

27-1-3938

Questo perno è abbinabile alle cerniere Modulo solo per spessore 3 mm. Ti consente di realizzare un perno cerniera. Il perno può essere facilmente rimosso senza attrezzi.

Materiale	POM
Peso (g)	2 g
D	6

Finitura	bianco
L	80 mm

The image shows a technical drawing of a pipe assembly. At the top, a table specifies the finish as 'bianco' (white) and the length 'L' as '80 mm'. Below the table, a side-view drawing of the pipe is shown. The pipe has a 90-degree elbow at the left end. A dimension line indicates a distance of 14 units from the start of the elbow to the beginning of the main pipe section. The main pipe section has a total length of L. At the right end of the pipe, there is a double-flange connection. A dimension line shows a distance of 8 units from the end of the pipe to the center of the flange. A diameter dimension D is indicated for the main pipe section.
